

MERLIN INFLATABLES

PVC INFLATABLES - COLD AIR SEALED

Primary Uses

There's no better way to create awareness of your product than using a larger than life Inflatable product replica. Inflatables promote high visibility with their bright full colours and are perfect for in-store promotions.

Inflatables can be either ground standing, suspended in store or filled with helium to float and no one can fail to miss them!

Inflatables are light, easy to transport and install, making them a very versatile marketing tool

Merlin Inflatables produce cost effective inflatable products for companies to use as attractive and exciting point of sale items, from retail stores to trade shows, promotional mail shots, event/road shows giveaways or as novelty inflatable product replicas.

Product Description

Manufactured from high quality PVC that complies with British and European Safety standards.

Our Inflatables are produced to specifications that fit our client's requirements and all products are air tested prior to despatch from our factory.

Merlin print up to 6 colours screen print, full colour process print and digital print thus ensuring a true representation of your corporate branding.

Merlin Inflatables offer a full service that provides design, production, delivery and in house installation.
