

MERLIN INFLATABLES

COSTUMES

Primary uses:

Transform your product to a live walking and talking leaflet distributor. Imagine your product coming to life as a larger than life blow up character. Distributing your literature to a public attracted by this novel inflatable costume.

Announce your appearance at a trade show or exhibition with style and imagination. The flexibility of this product will give your sales promotion team a marketing tool that can be used again and again. Easy to operate and compact to transport in the rear of a car, our walkabouts provide an exciting and informative addition to sales campaigns and road shows.

Product Description:

Constructed from lightweight coated nylon the fabric is patterned, printed or hand artworked, then sewn together to form the desired shape or product replica. A large concealed zipper allows access for the operator, who is wearing a utility belt carrying a small 12v battery. After the zipper is closed the operator activates the power, which drives a small inflation fan situated in the sidewall of the costume. The costume is permanently inflated whilst the fan is on. When deflated the costume and fan folds down to the size of a sports bag weighing less than 20kg.

Sizes:

Generally costumes are constructed to accommodate the average size person and dependent on the design are approximately 180cms - 240cms high and 60cms - 75cms wide.

Options:

Costumes are also available as a rigid foam costume, which is formed to a shape and then covered, in a lightweight Lycra that can be digitally printed with artwork.
